

Submitter: Svein Wiese Hansen  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure, Appointment or Topic: SB698

Oregon citizens are against this bill. We do not believe that publicly controlled buildings or operations funded by our tax dollars should have the ability to arbitrarily restrict the ability of citizens who are law abiding, have followed all requirements, completed background checks, taken classes and purchased legal firearms from carrying said firearms in a safe and legal manner.

Common sense alone should prevail and the Senate knows as well as anyone that is legally licensed concealed carry permit holder is not the individual that the state should be worried about. If the Senate was to focus on the criminals of the state and reduce criminal activity instead of inventing additional restrictions on its citizens that are not the cause of the crime then the Senate might actually create change for the citizens that is meaningful.

We beg the Senate to please stop these attacks on lawful citizens who follow the laws and do not commit crimes and start focusing on crime and actual matters that will make our lives better and safer.
