OPPOSE! This bill is absolutely ridiculous! I live in Portland and encounter signature gatherers all the time, but this bill would make the number of signatures required so high as to basically be unachievable. It would mean that only super rich people would have the wherewithal to fund the level of staff necessary to get any initiative requested by the people moving forward. And what about citizens who live in rural areas? Their voices just go unheard now? If you want to prevent people from voting on issues, just come out and say that instead of cloaking it in this nonsense, I oppose this stupid fascist measure.
