

Submitter: Steven Hawley

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3846

There is no excuse for this cheap attempt to turn over federal lands to the state in order to liquidate timber holdings. Federal lands belong to in public hands, and should be managed for the enjoyment of generations to come. Oregonians hunt, fish camp and enjoy time with family and friends on lands they and the rest of Americans collectively own.

"Leasing" these lands puts that future at risk.
