SB698

SB 698 does absolutely nothing to prevent or curb violent criminals from doing harm to others. What it actually does is create a scenario that is confusing to law abiding citizens and turn us into criminals or potential victims. Concealed carry holders in Oregon are among the most responsible of citizens in our state and country. The facts are widely documented and indisputably supportive of my statement. This bill needs to be and therefore should be stricken. As an Oregonian I ask that you absolutely oppose this bill as our elected representatives and voice. The majority of Oregonians, your constituents do not support this bill or any of the others being presented against our will and rights.
