I oppose SB 1154. Oregon government does not have the manpower to monitor quality and quantity of private wells. This is just another government overreach ploy to control private wells. Stop the government grab and let Oregonians live peacefully. We pay our taxes. We paid out of our own pockets to drill our wells and we pay out of our own pockets to maintain our wells. Many of us small farmers supplement Oregon's food needs by raising livestock for meat, milk, eggs, etc. The more restrictions placed upon private landowners, the less these same landowners will be able to keep Oregon clean and green.
