Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: SB1154

There are thousands of registered voters in the rural area we live outside of Grants Pass. There is no public water available, so everyone must own a well which cost thousands of dollars to drill and maintain; replace pumps that break down, replace holding tanks, have generators for when the electricity goes out (which is often these days). For, the State to mandate well meters and put yet more rules and regulations, threats of fines, is not representing the People as you've taken an oath to do. We moved from California to Oregon due to the heavy hand of government there, only to find it is much worse here in Oregon. This bill appears to be another way to tax the citizens without putting it on the ballot. Please vote NO on SB1154.
