

Submitter: Calista Songstad

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3846

Central Oregon has suffered immensely from Wildfires and each year we get warned that it will be worse than the last. Even if the Federal Government course corrected on the policies that have caused so much harm, it would take years if not decades to accomplish all of the clean up necessary. It is time for Oregon to take back some of the responsibility of its own land. Let the Ochocos be a pilot for what is possible when those whose backyards are on the line, take responsibility.

Please schedule HB 3846 for a work session and vote Yes.
