

Submitter: T. Ardel Wicks

On Behalf Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure, Appointment or Topic: HB3062

This measure adds unnecessary and duplicative regulations to industrial projects—requiring extra health studies, new land use restrictions, and additional public hearings, even for businesses that already meet strict state and federal standards.

We need to make it easier for more jobs and manufacturing by not increasing the red tape for projects to get done.
