Topic: SB74

I urge you to oppose SB 74 which requires the Department of State Lands to “study” determinations of navigable on Oregon waterways. The navigability issue has been around forever. As ranchers and landowners with numerous waterways going through or adjacent to our property, we have grave concerns about the impacts of such a “study” on our land and the ever increasing regulatory regime that comes with such actions by state agencies. Thank you for the opportunity to comment on this very important issue to natural resource industry landowners.
