This bill infringes in our rights as land owners and should never come to pass. I vote no on this bill and can't believe that this state would even fathom coming up with something like this to make the citizens of this state pay more and more money to the government and to give willingly our personal water supply wells that are owned by us the owners of the land to the cities so that we can install regulators and meters on our own wells. This is outrageous and everyone should be mad as hell.
