Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB429

I oppose SB 429 for many reasons but I will voice two in this statement. 1) Applying additional time on top of the already will create unnecessary hardships on the disabled and well as the obvious hardship on our Second Amendment. It will do nothing to curb violence, including the suicide rate in Oregon. Nothing but as all of the recently introduced antifiarm bills do. Which is to put the weight and blame of the mental health issues and rise in violent crime in our state on the law abiding and free citizens. 2) The funding for this bill and all of the absolutely unnecessary firearms bills being introduced is going to come from us as tax payers. This bill and others are not sustainable now or in the long run without putting additional financial burden upon the tax payers. For so many rational and common sense reasons, I urge you to say no to this bill.
