

Submitter: David Tappert
On Behalf Of: My family and all residents of Oregon
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB1154

Measure, Appointment or
Topic:
SB1154

If this bill passes it will hurt the lower income people. My familys household consists of 3 senior adults and 1 disabled adult. All of which our income is derived from SS. We will not be able to

afford the expense of the proposed changes to my private well. You are always talking about how you want to help the lower income people and then you try to get something like this passed. It doesn't make sense. This bill will no way help anyone but the state, and your job is to help the people. Do not put another expense on the already high cost of living, of the lower income and seniors in our state. We already live month to month on our combined incomes. This justs makes it even harder to make ends meet monthly.

How about making a change that actually helps all if the people of Oregon and start cutting the waste! We can't afford waste in our household and our leaders should allow waste in our States home either.

Imagine, cutting costs as oppose to creating costs for the people you serve.

Respectfully,
The Tappert Family of Prineville, Oregon
