Senate Committee On Judiciary

Measure, Appointment or Topic:

SB698

I grew up in a law enforcement family as soon as I was 21 and was able to get my concealed hand gun license i did. My family being in law enforcement is great they are well respected in our community but there was always the flip side to that. The not so fun part where an inmate would make death threats to our whole family putting us on high alert i would hate to have someone act on there threat and me not being able to defend my self ,my family ,my friends or anyone else because I was in a area they said I can't carry in. Don't take good people's right to carry and protect everyone away from them don't restrict where they can carry we are all out here to protect everyone and if you do pass this you will take that away
