

Submitter: Cheryl Erickson

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3839

This bill is not necessary. It follows in the steps of using punishment to tout keeping people safe. Studies show that people who have been convicted of a sex offense are among the least likely to re-offend, <7%. People at L1 and L2 are the very very least of the people Oregon needs to focus on. They have paid for the opportunity to have a family, a job and a life. This bill is wrong not only for the impact on those whom it would directly impact, but also because it absolutely does nothing to keep children safe beyond measures already in place.

I oppose HB 3938. Please vote no.
