Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB697

This bill is ludacris! I have carried a firearm since I was 12 years old, I was shooting them a good 7 years before that. I have never had any form of an incident. Instead of limiting guns from good people we should be working on access to education. Things like the Hunter Education program should be offered thru our schools so that youth would have the opportunity to safety training. If this bill passes it will limit many opportunities in our state. Youth hunting, youth shooting even hands on training would be eliminated.
