Again the state goes out of its way to protect criminals and not the public . Weather its a gun free zone or not the police will never be there to protect the citizens from a criminal. There not even required too . There job is just to clean up the mess . The state government of Oregon goes out of its way too keep the criminals on the street. there are already laws on the books for crimes with a fire arm yet criminals are just dumped back into society to commit more crime . Yet you want to criminalize the act of protecting the community by a Concealed carry holder . Makes me sick .
