Senate Committee On Judiciary

Measure, Appointment or Topic:

SB697

I oppose SB 697. If a person is 18 and can fight for and die for our country, there is no reason to limit what firearm they can possess and carry. For an example, if they are legally hunting and need to carry a separate firearm besides the one they are pursuing game with, so be it... what is the harm in that? What if they want to go out into our once great state and do some target shooting... what is the problem with that as long as they follow rules and laws.

The real question is, why are the supposed leaders of this state hell bent on disarming every citizen that legally follows the rules and not focused on locking up those that do not... it baffles my mind
