SB698

* It is a well know statistic that legal gun owners with concealed handgun licenses or concealed weapon permits comit fwere crimes than I Law Enforcement Officers.

* An armed society is a polite society.

* Continued limiting of areas where legal gun owners only serve to limit the places can legally carry to defend themselves from a criminal. Criminals, by definition, do not obey laws. If the State continues to limit the places where legal gun owners are prohibited for taking responsibility for their own safety, then the State MUST become FULLY responsible for their safety. Since I am very doubtful this will be the case, it is my hope citizens injured by this law, if passed, sue the State to oblivion and vote all supporting law makers out of office.
