I oppose this because we recognize 18 years old to be an adult. At 18 you can drive, have an apartment, and all the other things that open up at 18. Here is a big one, you can join the military, be issued firearms, and fight for our country, all at 18. So you can be trusted with all these freedoms, but buying a firearm you have to wait 3 more years. This does not make sense.

Also this is just another way to twist and turn our 2nd amendment rights.
