Why are our taxes being raised or even used to strip our Constitution and rights to peices? This bill is a waste, an absolute waste! The majority of the devices listed under this bill are already illegal. Those that aren't are not already illegal are not what this bill and those behind this bill attempt to claim they are. Our firearms and our right to purchase, own, and carry them is not the problem. Devices used to improve accuracy, improve trigger pull, and speed of use. Are not dangerous, nor do they create the danger this bill falsely claims. In fact, the majority of these devices actually improve the safety, handling, and accuracy by the law abiding user. Eitherway, this bill is just one of many attempts to close the door on our rights. Anyone claiming different is living. We are done being ignored and lied to by our elected Representatives! Vote NO on this bill and all other anti Second Ammendment bills on the table. You have awakened the citizens and the majority DO NOT SUPPORT THIS ABUSE AND MANIPULATION.
