Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB697

This is plain in simple a violation of are constitutional rights as american that are father's and fathers before them fought for to make sure that we had rights to bare arms. It's written that it shall not be infringed upon an are constitution but again and again you try and let people that are taking money from out of State help try and violate are laws. When is enough enough? You as a government shouldn't even consider this bill it's a joke and should have been shut down the minute it can to office. Not wasting tax payers dollars to try and violate are laws that are written and stone.
