

Submitter:	Bryan McGregor
On Behalf Of:	Oregon Citizens
Committee:	Senate Committee On Judiciary
Measure, Appointment or Topic:	SB697

Last month I and my two teenage sons were present in person for the public hearing on two of the many anti Second ammendment bills. We came to experience in person our Representatives listening and taking in their constituents voices. I testified myself in fact, and when finished I received confirmation from my sons that you, our elected representatives were in fact not listening. Rather st least one of you (Kropf) was playing on your phone throughout all opposing testimony. What a fricken shame! The other thing that came from our in person experience. Was that our young adults are not only being ignored, but they are being excluded from utilizing their PROTECTED CONSTITUTIONAL RIGHTS under this bill. My sons are both active, responsible, members of MCSAR. Both are a path to join our beloved Marine Corp. One of which leaves in August to defend and protect you, myself, our country, and our Constitution. This bill is horrendously ignorant, useless, and in direct contradiction to our Constitution as recently stated by our Federal Supreme Court. But for myself and my sons the most troubling part is that YOU our elected voice. Are ignoring and intact telling our responsible and sensible young adults that you think they are stupid, irresponsible, and incapable of utilizing their God given Rights. You are throwing a middle finger at your up and coming voter base. If you don't care about our rights, at least take note that your seat is not permanent nor protected. You have created an awakening in our State that you likely did not expect. Our young adults and the law abiding citizens of our state DO NOT SUPPORT THIS BILL OR ANY OF THE ANTI-FIREARMS bills you are attempting to push through. We are being ignored and strangled by your radical behaviors and bills. I urge you to vote NO and correct your positions now. We will not support you in this now or next election. Your names are going to be remembered. The question is, will you be remembered because you listened to us as you were elected to do? Or, remembered because you blatantly sput in our faces by supporting tax increases and the strangulation of our fundamental rights? Please choose our rights and hard working households over your radical special interest groups.
