Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB697

SB697, raising the age to 21 for purchasing semi-auto rifles, is unfair to 18–20-year-olds who can vote and serve in the military, and criminals ignore age restrictions anyway.

18-20 year old adults who don't have access to semiautomatic rifles for various types of hunting activities are at a disadvantage from those who have semiautomatic rifles.

This is prejudice against hunters under 21 years of age.

These bills, threaten our constitutional rights and are unlikely to achieve their intended goals of reducing crime or suicide rates.

The 2A guarantees our right to keep and bear arms, a freedom that shall not be infringed. This bill, pushed by extremist, impose unnecessary burdens on law-abiding citizens.
