Dear Chair Sollman, Vice Chair Brock Smith, and Members of the Committee,

I am writing to ask for your support on SB 1187: Make Polluters Pay. This bill has a public hearing in the Senate Energy and Environment Committee on Monday, April 7th with a possible work session scheduled for Wednesday, April 9.

This bill is important to me because I have seen and read so much about climate change and polluters over the past decades. It seems that state-by-state approach is the only way to take positive action. With President Trump in charge I believe that nothing will be done at a national level.

There are so many issues important to me at this point in my life. But as a seventy-four year old grandmother, I am most concerned about what we are leaving our children. I fear for our planet and for the children who will inherit the mess we have made of it.
