Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB696

I oppose sb696. It is just a feel good law for people that do not understand how these devices work. Quit being ignorant and learn what these devices actually do. It is already a felony to possess a machine gun without proper government forms and these devices do not make a machine gun out of normal firearms! Is the state going to outlaw a persons finger, since some people can shoot faster than these so called "rapid fire activators"?
