

Submitter: sara eck

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1187

Honorable Chairs Sollman, Vice Chair Brock Smith & members of the Committee, I am writing to ask for your support on SB1187, This bill is important to me and all Oregonians. We all breathe the same air and drink water made available through community and municipal systems here in Oregon. When air is polluted by carelessness of corporate interests, the livelihoods of Oregonians is put into jeopardy, and this makes one feel that as a citizen of the state we have no value. The SB1187 that you legislators can make law will make the polluters pay, Please pass SB 1187 and show that you value Oregon citizens quality of life,
