Measure, Appointment or Topic: HB3542

As a 30+ year long motorcyclist, I strongly urge support of this measure. In addition to reducing traffic congestion, lane filtering provides multiple safety benefits for riders themselves including, but not limited to: legal escape paths (ways to avoid collisions), and reduced risk of overheating.

There is a reason lane filtering is a standard practice in most of Europe and many other nations. Done responsibly, filtering is a net positive for everyone. It's hard to build more road, so use the road you have, more efficiently.
