

Submitter:	Tim Allen
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB1154

Part of the reason we live in a rural area is because we enjoy being as self sufficient as we are able. We've done the work, spent the money and now have our own viable water source that requires no investment by the state. More regulation is not necessary, and costly to the tax payer. The State is constantly increasing revenue but always falling short. If what you are doing isn't working, doing more of it isn't going to help. The State doesn't need the complexity, doesn't have the money to implement, and frankly has no business in this matter. Leave well enough alone and vote no on SB1154.
