Senate Committee On Judiciary

Measure, Appointment or Topic:

SB429

Thank you for considering my testimony.

Senate Bill 429 is not a solution to gun violence or suicide prevention—it is a feel-good

measure that restricts rights and puts Oregonians at greater risk. The focus should be on

mental health support, law enforcement resources, and education, rather than infringing on

Second Amendment rights and delaying self-defense. Lawmakers should reject SB 429 and

instead invest in proven strategies that genuinely protect Oregonians.

I strongly oppose, please vote no.
