Measure, Appointment or Topic: HB3372

We'd like to express our support for HB3372.

We have been market gardening on the Oregon coast for over 50 years and know the importance of providing healthy food for our community. We have sold to local families, at farmers markets and to restaurants.

By passing this bill it will allow more small farms to support themselves while offering produce locally and is a best use of well water.

We encourage the passing of this bill.

Sincerely,

Hugh and Janet Rackleff
