

Submitter:	Nancy Hildebrandt
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB1154

I STRONGLY oppose SB 1154. We are all worried about ground water contamination and we want to protect Oregon's water. This bill is not the answer. It constitutes massive state overreach, it undermines local decision making and property rights, and it targets farmers. If you value local food, you should realize that this bill will only accelerate the number of small farms leaving the state.

Oregon should be looking into innovative methods for preserving our public waters, not setting up more state overreach and overregulation. Please vote NO on this bill.
