Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB698

This bill if passed will make our streets, municipal buildings and schools more dangerous than they are currently by taking away our ability to defend ourselves and others with equal force used against us. If an abused woman is denied the right to carry tools of self defense into a public building or city park she may lose her life at the hands of her abuser as she likely would follow the letter of this proposed statute and be unarmed when her abuser attacks next. This would be due to her leaving her firearm at home and being attacked while she makes that stop between the public places and her home.

Also our 2nd Amendment was put in place to allow citizens no restrictions on arms as to be able to keep the government from acting as tyrants.

It is clear that health and safety are a citizens responsibility and not the responsibility of government.

This proposed bill is dangerous and tyrannical at best

This bill is yet more proof that our state legislators don't care about the Oregon citizens.
