

Submitter:

Dave Gray

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB697

This measure violates the rights of youth who are legally able to vote. This further restriction on their rights is criminal at best. 18 year olds are legally able to drive, vote, and serve in our military where they will likely carry firearms. 18 year olds can legally carry shotguns and rifles without supervision. 18-21 year olds can still cause great harm with an automobile, gas, diesel, commonly available household cleaners.

This proposed measure doesn't create safety it creates the ability for the state to be sued for deprivation of rights to the tune of billions of dollars as the US Supreme Court has already ruled against similar bills and measures.

The framers of this bill should at least be removed from office as this bill is a violation of Marbury v Madison and 18 USC 241 and 242 as it deprives rights under the illusion of law.
