SB696

We the People enjoy the PRIVILEGE of owning and operating a vehicle in all 50 states and all U.S. possessions, but the anti-gun folk never object to cars that blast off at speeds of zero to 60 in under 4 seconds, wow, what a privilege! I hold the 2nd Amendment quite higher than a mere privilege! this bill as bad! If we the people are old enough to purchase guns and parts of guns and enhancements to guns and we have been vetted and cleared by a background check, then I say, it's time to honor our oaths of office and support the Constitution in its entirety!
