

Submitter:

Jacob Ross

On Behalf Of:

Committee:

Joint Committee On Transportation

Measure, Appointment or Topic:

SB723

I am in full support of SB 723 public safety should never be comprised for a higher profit margin, as an employee for a class one railroad for 20 years the loss of a qualified person has never been the correct answer to any problem. In the interest of safety for our communities as well as employees removing a second person from the cab is an extremely dangerous proposition. Two person crews are in a unique position to save lives , minimize damage, and be more responsive to an ever changing environment.

Respectfully submitted, Jacob Ross
