

Submitter:

Kelly Hodge

On Behalf Of:

Committee:

Joint Committee On Transportation

Measure, Appointment or Topic:

SB723

Two person crews (humans not AI / nor cameras with a live feed) are the safest way to ensure RAIL ROAD EMPLOYEES and PUBLIC SAFETY. In the event of an emergency employees will do better as a team (instead of one person who might be/ become incapacitated or worse) coordinating for help.

As State Legislatives you are in a position to ensure the safety of countless lives, the environment, and Oregons' sensability.

Please support 2 FRA Qualified HUMAN employees in train cabs !!!!!
