I oppose this bill! As a sportsman of 45 years or better I have been "possessing a firearm" in all those years. Let's look at the fact that 18-20 year old are legal adults with the right to vote and serve in the military where the government issues them a weapon and with the expectation may die! As a civilian adult they have every right to protect themselves and enjoy sport activities that use guns! Now let's recognize the fact that SCOTUS has already affirmed it is their right to own and possess firearms. So as Tax payers we will have to pay to fight this unconstitutional bill if passed!
