Measure, Appointment or Topic:

SB698

Very opposed to SB 698. Criminals do not obey laws; they will carry there anyways, often targeting those locations. Laws like this only make law-abiding citizens accidentally in violation when practicing their well proven/deserved right to carry concealed. These laws also often ban things like: knives, pepper spray and tasers on properties including college campuses. This often serves to disarm the ones that may need it most. 42% of college attendees report sexual assault and it makes up 21% of on campus crime.
