Measure, Appointment or Topic:	SB1154

Please vote no on SB1154. At a time when we should be reducing regulations in order to encourage new construction and make housing more affordable, this bill only adds to the bureaucracy and accomplishes nothing. Instead: Center local Ground Water Advisory Councils with real decision-making power,
Require consent-based inspections,
Use transparent, peer-reviewed science to identify causes,
Limit agency mandates to situations with clear, demonstrable harm.
