Senate Committee On Judiciary

Measure, Appointment or Topic:

SB698

SB 698 proposes to create an ever changing landscape of allowable and non-allowable areas where a legally licensed CHL holder would never know if it legal or not to carry a concealed weapon. As public or quasi public agencies change their policies every time a new manager or beurocrat is put into place, it would be impossible to know the policies of every agency at any given time.

This bill only seeks to make criminals out of the most law abiding citizens (CHL holders) and provides no additional protection to any citizen or agencies that may be included in SB 698.

Shall not be infringed..... As multi generation oregonians, we are growing tired of the lack of representation by all our elected officials. Do better.
