SB429

I am writing in opposition of this Bill. This Bill will do nothing more than what current law already does. Under Democrat President Bill Clinton, we went to the Federal Instant Background Checks, which was heralded as the best avenue for ensuring that those purchasing a firearm was legally allowed to. The OSP can already delay checks, if they can not immediately determine the ability of the applicant to take possession of the purchased firearm. This Bill is unneeded and a waste of resources.
