Measure, Appointment or Topic: HB3372

I have been a regular buyer of produce at the Spencer Creek Community Growers Market for many years. The vegetables are for our personal use and are from a known source and grown by friends in our neighborhood.

The Oregon Legislature has, I think, inadvertently cut off our source of fresh, locally grown produce that have had negligible impact on our local water supply. This is a prime example of " One medicine does not cure all ills" . Please lend your support to moving HB 3372 on to the next step. We need you to support us in this simple but effective way to remedy a situation impacting many families.

Thank you
