SB429

I oppose this restriction and direct violation of constitutional rights.

Creating "waiting" period only enables criminals. This will NOT stop or slow criminals from obtaining firearms. Criminals do not need to wait for a background check to obtain a firearm.

Why would you force law abiding citizens to endure a this hardship? Rural citizens who must travel at expense to purchase their firearms will be forced to spend more money on lodging, or extra fuel on return trips. This is undue hardships that criminals will not be subject to.

I oppose this bill.
