SB697

I am in strong opposition of SB 697. Measure 697 is a plain a deliberate attack on the second amendment rights of citizens of Oregon. A person over 18 years of age is a legal adult in the state of Oregon and should not be prevented from exercising their 2nd amendment right to possess a firearm. Many residents of Oregon between the ages of 18 and 21 live on their own and deserve the opportunity to protect themselves and their families the same as anyone else. I cannot think of another constitutional right that is withheld from a US citizen over the age of 18. Withholding the right to bear arms is a clear and blatant attack on the 2nd amendment right as outlined in the US constitution.
