

Submitter: Donna Pioli  
On Behalf Of:  
Committee: Senate Committee On Energy and Environment  
Measure, Appointment or Topic: SB1187

I am writing to support SB 1187.

This bill would put the financial responsibility of companies, such as oil and fossil fuel, that create the pollution that affects the citizens of Oregon and not the responsibility of the citizens to pay. In the long run it is money and the bottom line that motivates companies to find solutions. Let our concern for the health and wellbeing of the people, a healthier environment and the preservation of our land, air and water be the incentive for companies to do better.

I am proud that Oregon has been a leader in many of our laws and policies. By passing Senate bill 1187 again we will lead the way in making companies and not citizens pay for pollution.

Donna Pioli  
Supporter of Senate Bill 1187
