Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB698

This bill seeks to punish law-abiding citizens and restricts their right to self defense. In a world where courts have ruled that police have no obligation to protect the citizens they serve, we must be able to defend ourselves. This bill creates a crime of possession where a person can be prosecuted and punished even if no-one was hurt, or ever in any danger. I strongly oppose this bill and any other that seeks to not only infringe upon our natural right to self defense, but also aims to make criminals of honest, law-abiding citizens.
