SB697

Why would anyone in their right mind say that 18-20 years old don't have the right to self defense and the defense of others which is a natural born RIGHT protected by both the Oregon and US Constitution? You are trying to discriminate against this group of adults because of their age which is a HATE CRIME! and a direct violation of their State and Federally protected rights. If 18-20 year olds are old enough to go off to war and die for their country, then they're old enough to lawfully and possess firearms!
