

Submitter: Gary Cummings  
On Behalf Of:  
Committee: Senate Committee On Natural Resources and  
Wildfire  
Measure, Appointment or Topic: SB1154

I, Gary Cummings, heavily oppose this bill. Trying to impose regulations to govern the water I use from my property....

This is Government overreach. I will not be told how I can or cannot use water. Water is a necessity of life! Without it, people suffer!

The Government only exists because WE THE PEOPLE allow its existence. When the Government tries to monitor and control the use of or refuse the ability to get a substance the people need for life itself, the Government ceases to be of any use for the very people that are allowing its Government to exist!

This bill and any bill like it makes the Government a NON essential entity and a threat to the lives of the constituents.

WE THE PEOPLE say NO to SB1154 and any other bill meant to constrain and/or regulate water rights and the peoples livelihood!
