I OPPOSE this bill and all amendments. You all are overstepping once again on our personal rights. It will never be okay for someone to step foot on someone's personal property without permission. Let alone, monitor people's personal water on their personal land that you feel qualified to think you have a right to. This is not okay. You have no right to access/monitor/take away/put on hold/or make any decision related to someone's own personal well. You didn't pay for it. So I oppose this bill, along with the majority of Oregonians once they hear about this.
