

Submitter: Barbara Chatfield  
On Behalf Of: We the Peole  
Committee: Senate Committee On Energy and Environment  
Measure, Appointment or Topic: SB1187

I oppose a carbon tax that will raise the cost of energy for all Oregonians. This bill authorizes " environmental justice community" to impose a retroactive from 1995-2024 tax on companies/individuals who already purchased credits in compliance with " cap and trade". Unfair and unjust. I urge you to oppose this bill.

Thank you.
